EXPERTISE

- Data protection law
- Corporate law/M&A
- Corporate compliance

Janina advises medium-sized and large companies on all issues surrounding data protection. Key practice areas include the implementation of the EU General Data Protection Regulation (GDPR), the establishment of data protection management systems including advising clients on technology-supported projects and data protection audits as well as supporting and representing clients in regulatory proceedings. Further key areas are drafting data protection contracts, creating and reviewing internal company guidelines, employee data protection, providing data protection support for outsourcing projects, the structuring of international and group-wide data transfers and advice in connection with compliance investigations.

She also advises companies and entrepreneurs on all aspects of corporate law. Her focus here is advising on the law surrounding limited liability companies (German GmbH law), partnership law and advising start-ups in the founding and growth phases.

Janina is a Certified Information Privacy Professional (CIPP-E) of the International Association of Privacy Professionals (IAPP).

Recent work
